

AQAR 2010 (Oct) – 2011(Sep)

Section A: Plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved:

After the first NAAC's accreditation of Rangia College at B⁺⁺ level in the year 2004, the college has established IQAC (Internal Quality Assurance Cell) as per the guidelines of NAAC. As per guidelines of NAAC, proper representation of all sections of academia was ensured with all sincerity. The main objective of the formation of IQAC was to maintain value based quality education and healthy academic practices in the campus.

The action plan chalked out by IQAC, Rangia College for the academic year 2010-11 is as follows:

- * Independent departmental accommodation for most of the arts department with departmental library to promote healthy academic atmosphere.
- * Computerization in the department to provide better teaching learning process.
- * Opening of H.S. section in Commerce stream.
- * Promotion of research (both major/minor projects) among faculty members for personal career enhancement.
- * Extension activities through NSS, NCC, Scout & Guide, Health Care center and various forums to bridge the gap between the college community and the adjoining society.
- * **Publication of College Magazine**, departmental wall magazine etc. to promote creative writing among the students and faculty members.
- * Holding of departmental seminars on relevant issues of socio-academic importance to create social awareness through students.
- * Presentation of International/National level seminar papers by the faculty members in different institutions to encourage personal development.
- * Introduction of Biometric Time Attendance system to record the attendance of the staff.

The college has been able to provide spacious departmental accommodation to most of the departments in the faculty of arts and for the remaining few departments, work is in progress. Five departments have been converted to computer enriched department and the process is on for the remaining departments in a phased manner. It has been decided to introduce

commerce at the HS level from the academic session 2012-13. It could not be done in 2011-12 due to the introduction of semester system in degree level from that year. A good number of teachers availed UGC's Minor research projects. A few of the faculty members are doing Major research projects. Moreover, some faculty members have started Ph.D programme under different universities. Different support services of the college have been doing excellent work in different field of extension activities. Here most significant contribution is seen in case of Scouts and Guides, NCC, NSS and Health Care Unit of the college. College magazine is timely published with a desired standard. Most of the departments have published departmental wall magazine periodically. It reflects the writing skill and creativity of the students along with the faculty members. Departmental seminar/popular talk/workshop etc are organized from time to time with the involvement of the college community on recent topics of academic relevance. During the period faculty members attend various national and international level seminars/workshops at different colleges/universities within and outside the state. The events are mostly UGC or similar academic funding agency sponsored. The college has started the process of introduction of Biometric Time Attendance system to record the attendance of the staff.

01. Activities reflecting the goals and objectives of the institution

Established in 1963, Rangia College has been serving the socio-educational needs of the entire North Kamrup area. This institution of higher education is the premier seat of learning in the north bank of the Brahmaputra which is primarily a rural base. With a humble beginning towards spreading the light of higher education in a socio-economically backward area, because of the sincere efforts of a handful of local educational entrepreneur, the collage has now become a full-fledged three stream (Arts, Science and Commerce) college getting ready to celebrate the Golden Jubilee Year of its establishment from August 5, 2012. During this course of almost five decades, it has produced a good number of graduates who are now serving in different areas of social responsibility. The human resource produced by this institution has been able to establish it as a reputed academic institution in spite of its rural environment. This is sufficiently established by the NAAC accreditation of the college as B++ in 2004 and its ability to maintain to be reaccredited subsequently as B (2.80 score on four point scale) in 2010.

But, the college community strongly believes that still there is a lot more to be done in the field of academic excellence particularly with the changing challenges in the field of higher education over the years. In this age of globalization, the scope and area of higher education is expanding day by day. Under these challenging circumstances, the college community is determined to meet the socio-academic needs of the society in spite of its all sorts of constraints. With this aim in mind the college has prepared its priorities from physical infrastructure to mental make up in the campus.

* Independent departmental accommodation for most of the arts department with departmental library to promote healthy academic atmosphere.

- * Computerization of the departments to provide better teaching learning process.
- * Planning for introduction of H.S. Commerce class to boost commerce education.
- * Promotion of research (both major/minor projects) among faculty members for personal career enhancement.
- * Extension activities through NSS, NCC, Scout & Guide, Health Care center and various forums to bridge the gap between the college community and the adjoining society.
- * Publication of College Magazine, departmental wall magazine etc. to promote creative writing among the students and faculty members.
- * Holding of departmental seminars on relevant issues of socio-academic importance to create social awareness through students.
- * Presentation of International/National level seminar papers by the faculty members in different institutions to encourage personal development.
- * Introduction of Biometric Time Attendance system to record the attendance of the staff.

02. New academic programmes initiated

As the college is an affiliated college (to Gauhati University), the subject wise syllabus is prepared by Committee of Course and syllabus (CCS) for UG level at University level.

Member of CCS: Some of our faculty members are contributing their best of knowledge in preparation of curriculum and syllabus for courses in their respective subjects.
